➤ About First Place

First Place is the only agency in Washington State providing high quality education to children whose families are homeless. We are both a school for children and a social services agency devoted to families struggling with trauma, poverty and homelessness.

Our mission is to educate and nurture children whose families struggle with the risk or reality of homelessness, where we offer housing, culturally relevant education and support services enabling families to achieve permanent stability.

There is no cost to attend this event. Guests are encouraged to make a suggested minimum donation of \$150 to help First Place bring hope to homeless children and their families.
